

**9th General Congress of History of Navarre:
Old and New Frontier spaces**

(Pamplona, 12 to 14 September 2018)

Second circular

Call for Proposals for presentations

The Society of Historical Studies of Navarre organises the 9th General Congress of History of Navarre, to be held in Pamplona (Museum of Navarre) from the **12th to the 14th** of September 2018.

This time the Congress will be structured in various thematic round tables, coordinated by different specialists, around the slogan "**Old and New Frontier spaces**". The concept of frontier aims to draw an ideal difference between old and new, between alien and domestic, between what is admitted and what is strange; also between the new areas of historiographic knowledge. Any topic of political, social, economic, cultural history, etc., can be addressed from the perspective of the frontier, highlighting the trend of novelty, projection, influence, etc., that is typical in the history of Navarre.

Those interested in submitting a **Proposal for a Presentation** must send it directly to the **email address of each coordinator** of the round table to in question, with copy to the Technical Secretariat (congresohistorianavarra@gmail.com), between **1 December 2017** and **28 February 2018**.

The proposal will include the **title** of the paper and a **summary of 300 words**. It should include all **personal details** (name, email address, mailing address, telephone number and identity documents). Only one proposal for presentation will be accepted per person and per thematic table, even if the paper is by several authors. Papers may be presented in the following languages: Castilian Spanish, Basque, French and English.

During the month of April, after the Scientific Committee of the Congress has analysed and evaluated all the proposals, the Technical Secretariat shall notify the admission or not of the proposal for a presentation; following admission, rules applying to publishing and style of the paper will be made available.

The final texts for publication may be sent to the Secretariat of the Congress (congresohistorianavarra@gmail.com) on or before Sunday 9 September. Those not conforming to publishing standards and those submitted after the deadline shall not be published. Likewise, only those papers that have been presented at the public meeting of the relevant round table of the Congress and those whose authors have enrolled in the Congress (40 euros for SEHN members and 65 euros for non-members) will be published in the minutes, including a certificate of attendance, a certificate of presentation and a copy of the minutes, to be sent the interested party's address once published.
